

MOT16: A Benchmark for Multi-Object Tracking

A. Milan, L. Leal-Taixé, I. Reid, S. Roth, and K. Schindler (ARXIV 2016)

- ▶ Standardized benchmark for Multi-Object tracking
- ▶ New releases of MOTChallenge
- ▶ Unlike the initial release
 - ▶ Carefully annotated by researchers following a consistent protocol
 - ▶ Significant increase in the number of labeled boxes, 3 times more targets
 - ▶ Multi object classes besides pedestrians
 - ▶ Visibility for every single object of interest
